MOTTO & PHILOSOPHY

GET INVOLVED

Participation in the Youth Sports Program is encouraged for all eligible children in the Sasebo community. Athletics, competition, and sports, both team and individual are part of the American way of life and all children living in the overseas military community are encouraged to take part in the programs provided to ensure that they have the same experience available as their peers in the United States. Participation in the Youth Sports Program is not limited to our youth. Volunteers make our program work. We must encourage the adult members of our community to participate and contribute to our programs. We must provide them the necessary tools to make the program enjoyable and an overall success.

HAVE FUN

Youth Sports activities must be fun and provide a recreational outlet for the youth of our community and the adult volunteers. Our youth choose to participate for many reasons, but the biggest reason is that they believe playing sports will be FUN. We must strive to keep our youth thinking this way while they develop a positive attitude towards competition and fair play.

LEARN & GROW

Youth Sports Programs must be activities that aid our youth to grow emotionally, socially, psychologically and physically. Our sports programs should help these members of our community gain an understanding of the importance of total fitness. Our programs must include team sports, family and lifetime leisure activities for the development of a well rounded person.
